

Material : **1.0037 (S235JR)**

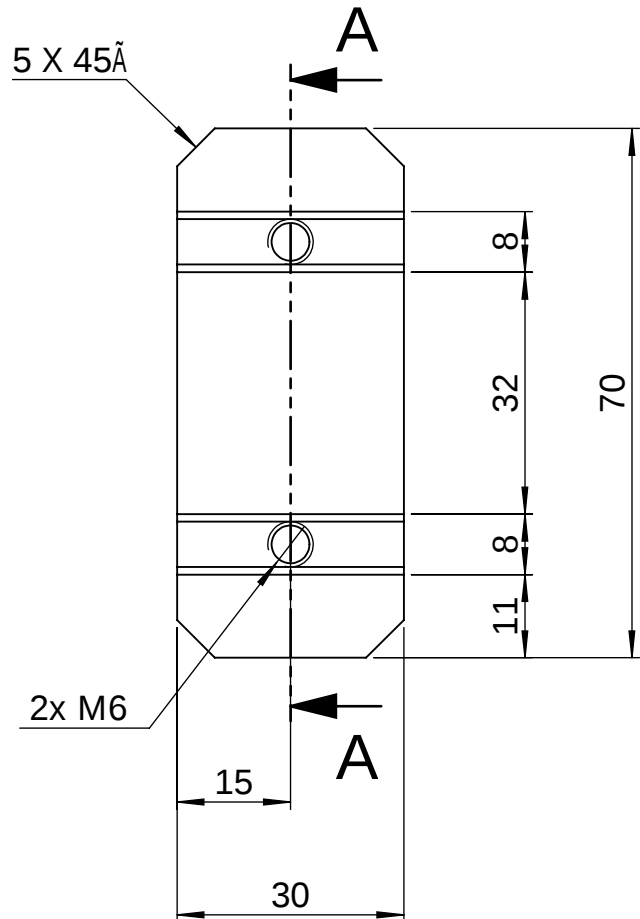

Heat treatment :

Protection of surf : Zinc plating 8 to 10 ×m thick

✓ brut  
Unless Otherwise Indicated

**COUPE A-A**

Removal of burrs and sharp angle

|                                                                                                                                                                                   |                                                                                                                                                    |           |          |                                       |                                            |                 |                         |                           |
